### What is ALS:

Amyotrophic Lateral Sclerosis – ALS (Lou Gehrig’s Disease) is a disease that there is no cure for and Jim Porter has it. It is a motor neuron disease that affects the muscles of the body. The average life expectancy of an ALS patient is 2 – 5 years. ALS can be inherited through your family genes or through an unknown virus. Please come out and support this shoot to help find a cure. It will be your wackiest day of shooting ever.
